Information for Applicant

A variance is a relaxation of the requirements of this Code that are applicable to a particular lot, structure, or use.

Each approved use variance **expires in one (1) year unless substantial development (in excess of eighty percent (80%) has been completed.** (Section 162.570 of the City Code of Ordinances.)

A variation recognizes that the same requirements do not affect all properties equally; its purpose is to permit minor changes to allow properties that are determined to have a hardship to enjoy equal opportunities with properties similarly zoned. You must prove that your land is affected by special circumstances or unusual conditions, and that it would result in practical hardship if treated with strict application of the Zoning Ordinance.

You must prove that the combination of the Zoning Ordinance and the uncommon conditions of your property prevents you from making any reasonable use of your land as permitted by your present Zoning District. The following conditions cannot be considered pertinent to the application for a variation: (1) proof that a variation would increase the financial return from the land; (2) personal hardship; (3) self-imposed hardship. In the last case, the recognition of conditions created after the enactment of the Zoning Ordinance would encourage and condone violations of the law. No variation may be granted which would adversely affect surrounding property or the general neighborhood. All variations must be in harmony with the intent and purpose of the Zoning Ordinance.

For a full copy of the sections of the Zoning Code that pertain to your specific application, please contact the office of Economic Development, Planning, & Zoning Department AT (618) 233-6518, ext. 1250.

Meeting Information

Zoning Board of Appeals meetings are regularly held on the fourth Thursday of each month at 7:00 p.m. in the City Council Chambers of City Hall at 101 South Illinois Street in Belleville, Illinois, 62220. November and December meetings of the Zoning Board of Appeals will typically be rescheduled one week earlier due to holiday conflicts. Please contact the Economic Development, Planning, and Zoning Department for an updated schedule for the months of November and December. The Zoning Board of Appeals is an advisory board, which makes recommendations to the City Council. The City Council will then vote on the request at their regularly scheduled meeting, held the first and third Monday of each month, at 7:00 p.m. in the City Council Chambers of City Hall. If you have specific questions about the schedule and/or hearing timeline, please contact the Economic Development, Planning, and Zoning Department.

The applicant may not obtain any permits to complete tasks which would serve uses or area/bulk regulations permitted under this variance, until it is approved by the City Council. Any work the applicant does to the subject property (i.e. painting, installing new flooring, cleaning, etc.) is done at the owners risk and expense, and the owner must realize that there is a chance the requested variance may not be granted.
