**RE: BUILDING CODE REQUIREMENTS**

To Whom it May Concern:

This letter is to confirm that the City of Belleville, IL has adapted the 2006 International Building Code and the 2006 International Residential Code.

The City of Belleville requires ice barrier per R905.2.7.1 and R903.1 regarding drip edge of International Residential Code and 1507.2.8.2 of the International Building Code.

The City of Belleville also requires a vapor retarder on exterior walls per 1403.3 of the 2006 International Residential Code.

If you have any questions, you can contact the office at 618-233-6817 ext 4265.

Respectfully,

  
Steven Thouvenot  
Building Commissioner
