When the maid begins her vigorous spring campaign with the broom, the particles of dust are very apt to find lodgment on the books, especially when these are left exposed on tables or on open shelves, against the invasion of which, flimsy curtains offer little or no protection.

Schoenhut's "Elastic" Book Cases insure absolute security and protection from dirt and dust of all kinds.

The patented disappearing door is so valuable an invention that many regard it about as desirable a property as the "Elastic" unit construction of these cases.

Introductory

It is with much pleasure we present to our patrons the seventh edition of the Belleville City Directory compiled by us. Notwithstanding the late census returns for Belleville were a trifle over 21,000, we feel assured these figures are below what they should be. There can be no doubt but what 23,000 would be nearer the mark, meaning of course within the corporate limits. Our canvass extends beyond the limits to a reasonable distance, and this Directory represents at least 26,000. These names outside being of people who are as much a part of Belleville as those residing inside the city limits.

We are pleased to note the City is growing in many ways and everything indicates greater prosperity in the near future. Belleville has everything that goes to make a city—the right kind of people, abundance of capital, beautiful homes, churches and schools, large manufacturing interests, and in fact lacks nothing that larger cities can boast of.

We thank all who have in any manner been helpful to us on this publication.

Respectfully,

THE McCoy DIRECTORY CO.
